Title : FLIGHT SIMULATION OF HS-748 WITH AND WITHOUT ROTODOME PART 1- MATHEMATICAL MODELLING AND DATA		Document No. PD-SE-8820 Date of issue: DEC 88
Author(s) : PADMA MADHURANATH AND J.K.SRIDHAR		Contents 99 pages 11 figures 28 tables 6 graphs
Division : Systems Engineering Division		No. of copies: 25
External participation : NIL		NAL Project No. SE - 0 -146
Sponsor : ASWAC ,DRDO , Bangalore		Sponsor's Project No. ASWAC / 52
Approval : <i>Mupathurane</i>		
Remarks :		
Keywords : Flight simulation ,Aircraft modelling Mathematical Specification , Aircraft Data		
Abstract : <p>The mathematical models and data used in the off-line non-linear simulation of HS-748 aircraft with and without rotodome are described here. Included are the models of the basic aircraft and rotodome, the engine , the control system , the weight ,c.g. and inertia characteristics.</p>
